Edmonton, Parkland Discuss Annexation

Edmonton officials met with representatives of the County of Parkland January 7th in the third of a series of annexation meetings with surrounding municipalities.

Meetings have been held with the County of Strathcona and the Municipal District of Sturgeon.

A second meeting will be held with each of the three municipalities and the city also plans to meet with the towns of St. Albert and Fort Saskatchewan.

The meetings with the municipalities follow an October meeting between the city, the municipalities and the province to discuss future growth of Edmonton.

The group was scheduled to reconvene January 15th but Edmonton is requesting a one month extension of the deadline to allow time to complete talks with the municipalities.

Edmonton is seeking an annexation plan that will draw no objections from surrounding areas.

questioned in the statement of need submitted by the County School Committee.

County and town representatives explained needs of the town in attempting to justify a new school building rather than the extension.

The meeting ended with the suggestion from Mr. Clark that all pertinent facts to justify a new building be submitted to the department at an early date. A decision on the matter would be arrived at following receipt of the information.

First Aid Instruction

The Workmen's Compensation Board has announced plans for a first aid course to be held in Drayton Valley later this month.

The course is intended to facilitate compliance with Provincial Government First Aid Regulations regarding workmen qualified in first aid. The course is open to all employees and offers benefits to companies involved as well as employees.

The course will be held in the Legion Hall on January 20, 21, 22, 27, 28, 29 and February 3 and 4 from 7:30 to 9:30 p.m. each evening. There is no charge for workmen.

Draw Winner

Winner of the draw held December 18th by the Drayton Valley 5-C's was Mrs. Orest Heyday who received the prize of a hair dryer.

The 5-C's (Canadian Coast to Coast Calorie Counters) held the draw to raise funds to send a delegate to the organization's annual convention in Vancouver in February.

Mrs. Halvorsen, co-ordinator of these activities for the County of Parkland, was prevented from attending by bad roads, but Councillor Ivan Vowk and Mrs. Vowk were present. Mr. Vowk was introduced and spoke of his pleasure in being asked to attend. He complimented the ladies on the fine showing of dressmaking and handicrafts.

Of the 27 women taking the course the following were on hand to model their dresses before an admiring audience.

D. V. Highlights

By Mrs. Edith Deby

Best wishes to the newly weds; Mr. and Mrs. Delbert Church, Mr. and Mrs. Wayne Thompson and Mr. and Mrs. Reggie Johnson.

Miss Lucille Comeau left last week to start her new job in Edmonton with the Alberta Teachers' Association as an art assistant.

Sympathy to Mr. William Kovac whose father died suddenly in Wetaskiwin on December 26th. Received a most unusual present from Gerald Mezzo at Christmas. A gayly wrapped gift contained a Bermuda Chicken egg. For the uninitiated a Bermuda hen lays a colored egg which hatches into a brightly coloured chick. This egg is a lovely olive green. A broody hen anyone?

Deepest sympathy is extended to Mr. and Mrs. Leroy Ness whose young son, Clinton, met a tragic death on December 23rd.

Mr. and Mrs. Peter Kowalcuk and infant daughter flew to Montreal for the holidays.

Mr. Michael Gormley spent a week's holiday with relatives in Wainwright.

Mrs. Claude Free was in Zama Lake for a few days visit with her son-in-law and daughter, Mr. and Mrs. Joe Rezewski and their family. Miss Edna Free, of Edmonton kept house during her mother's absence.

Sympathy goes to Mr. David Arndt and Mrs. Alvina Hansen whose mother passed away on January 1st.

Welcome back to Drayton Valley, Mr. and Mrs. Robert Mac-Millan. Bob and Marian were here for some years when the drilling was at its height.

Mr. Hubert Davidson entered hospital in Edmonton on January 4th for an operation. We join Hubert's many other friends in wishing him an early recovery.

It is a pleasure to be able to report that Mrs. Jules Parenteau is making a very satisfactory return to health.

One of the social events of the holiday season was a farewell party for Mr. and Mrs. William Duperron. The Duperrons will make their home in Peace River.

Mr. and Mrs. Ed Hines spent Christmas with their son-in-law and daughter, Mr. and Mrs. Barry Arnold, in Edmonton. The Arnolds have just bought a house on the south side.

Mr. and Mrs. Vaughn Thompson had the best possible Christmas with all their children at home.

Sympathy goes to Mrs. Alexander Zubot whose father, Mr. Joseph Hendrichs, passed away suddenly during Christmas week. Mr. Hendrichs had made a practice of coming from his home at Brooks to spend the month of December here and many people had made his acquaintance at Stedmans.

Congratulations to Mr. and Mrs. Jason Hazzard who became grandparents again last week. Mr. and Mrs. Robert La Forge are the proud parents. The newcomer has been named Jason Lee in honor of his maternal grandfather.

For the first time in five years Mrs. Joan Reynolds had all her family home for Christmas. Corporal and Mrs. Gordon Reynolds and infant son arrived early in December from Germany and Mr. and Mrs. Chester Farnsworth were down from Fort St. John with their daughters and a friend.

Robert Wolsey had the misfortune to have his rented house destroyed by fire recently. His furniture was a complete loss.

Mr. and Mrs. Allan Smith of Yellowknife, were in Violet Grove to spend Christmas with their parents. Also from the north were Mr. and Mrs. Ted Boodie and family of Fort Smith, who stayed with Mr. Boodie's mother, Mrs. Anne Look.

Our sympathy goes to Mr. Hammerlindl whose brother, James, passed away very suddenly at his home in Etonia, Saskatchewan.

For me one of the great joys of the holiday season is the cards

and notes from friends with whom I'm not in touch with at any other time. Among those known to many of you are: Mr. and Mrs. Dave Glen who are wintering in Parksville, Vancouver Island; Mr. and Mrs. Ray Clermont presently living in Nova Scotia; Mrs. Forbes who says she has definitely retired from teaching; Mrs. Charles (Jean) Moore who is a travelling school councillor for the County of Turner Valley; Mrs. Lo Cicero, formerly Miss Rose Marie Cromie, who is teaching at Sherwood Park; Mrs. Cornelia Wood, our M.L.A. for several years, who had a busy year. Mrs. Wood's travels took her to Montreal where she was during the October riots. Even that intrepid lady found it a terrifying experience.

It was a great privilege to be shown Larry Beckett's collection of colored slides taken during his working holiday in Denmark and his travels through parts of Western Europe and the Canary Islands. Larry had studied photography for a time and this training was of great help in the picture record he made of his stay abroad. I was fascinated by some of the indoor shots of the Danish farmhouse where he lived. Danish modern furniture mingled with antiques of great value which were reputed to have been in the family for two hundred years. Of special interest to anyone with a farming background were pictures of tractors and farm machinery from several countries shown at a machinery demonstration. The Danish country side is beautiful and the beaches are most inviting with their clean sand. Larry returned to Olds on Monday to resume his classes but if the opportunity ever offers I'm sure both Farm Union and 4-H members would find the slides most interesting.

His Worship, Mayor Howard Pickup and Mrs. Pickup had Tak-fung and Paul Hung, first year students at Camrose Lutheran College, as their guests over the holidays. Both boys are from

A FAMILY AFFAIR

At least 95 persons died of poisonings in Alberta during 1967. There was a total of 3,556 cases of poisonings -- 2,457 involving children under the age of five. R.S. Wilson, Administrative Officer of the Division of Medical Service says that more than 1/3 of the cases under 5 years were caused by headache pills.

Rather startling isn't it? Who are the chief offenders? The parents - not the children. Children could not poison themselves if all drugs, medicines, and cleaning fluids were kept out of reach in a locked cupboard. A small child will put anything in its mouth. If it's not food - it's poison! To protect that child practice safety in the home. Four of the worst danger spots are:

1. Under the kitchen sink - bleaches, solvents, cleaning fluids, detergents, lye, drain cleaners, disinfectants, deodorants, waxes, polishes, fabric conditioners are all dangerous.

Hong Kong. This was their first Canadian Christmas. Gordon Pickup, in his second year education program was also home for the holiday.

Hearty congratulations to Mr. Douglas Goebel who has just been appointed manager of the Treasury Branch in Fahler.

Robert Schurman came home for Christmas. He is living in Calgary now and is very busy. Besides taking courses which use his morning, he has a full time job beginning in the afternoon and his weekends see him doing old instruction

2. Bathroom.
3. Bedside table.
4. Kitchen counter - prescriptions, ointments, liniments, shampoos, pills, headache tablets, laxatives may be found in any of the three places. Other potential poisons include: Paints (varnishes, thinners, turpentine, brush cleaners) fly spray, fertilizer, weed killers, anti-freeze, acids, kerosene, gasoline, glue, cement, polish removers, perfumes, lotions and alcoholic beverages.

- How can you protect children?
1. Lock medicine cabinet.
 2. Lock poisons that are kept in basement, workshop and garage.
 3. Keep cleaning fluid, polishes, bleaches and other household cleaning preparations on high shelves.
 4. When answering the phone, make certain children are safe from any preparation you are working with.
 5. Keep cleaners with you as you move from room to room while housecleaning.
 6. Familiarize children with

poisonous materials. Do not put them in cups, milk bottles and other food containers.
7. Make certain children cannot retrieve preparations from the garbage can.

Pollution Greatest Threat To New Decade

Another decade has closed and the sensational sixties have left man gasping at his own feats. Despite the fact that we entered the sixties with the threat of a nuclear calamity still hanging over our heads, we managed a good ten years.

How will we fare in the seventies? The nuclear threat is still present but is now overshadowed by the graver problem of pollution. Unless we find the answer quickly the seventies might close out with the human race a lot closer to strangling itself out of existence in a wallow of garbage and foul air of its own creation.

There appears to be little more than token resistance as our generation, led by industry, rips the earth apart and pollutes air, stream and all nature in search of the dollar.

If you are one of those who hasn't done too much thinking yet on the subject of pollution -- read the following. If it doesn't jolt everyone who reads it, then we are in even worse shape than we thought.

SPECIAL BREATHING MASK SEEN ESSENTIAL BY 1990

"Scotia, N. Y. (AP) -- The way some scientists see it, the choice will be simple. Wear a special breathing mask or die from pollution.

"That's the prospect for life in the Northern Hemisphere by 1990 if the present pollution rate continues, scientists at the Atmospheric Sciences Research Centre say.

"Here is their present view of things to come:

"In 1980, 10,000 persons will die in one metropolitan area of the United States, which will be inundated by a cloud of pollution.

"In 10 to 15 years from now every man, woman and child in the hemisphere will have to wear a breathing helmet to survive outdoors. Streets for the most part will be deserted. Most animals and much plant life will be killed off.

"In 20 years, man will live in domed cities.

"Even now, the scientists say, there is no more clean air left in the United States. A six-year search was conducted by members of the research centre, which is studying pollution under federal grants from the National Science Foundation and the National Institute of Health.

"We have no solution; if we had a solution we wouldn't be fooling around with this stuff," said Alfred Hulstrunk, 40, assistant director of the centre. There are 20 research scientists at the centre.

"Air pollution, he says, has been increasing at a rate far greater than the air is able to cleanse itself.

"The last vestige of clean air the centre noted in the United States was near Flagstaff, Arizona, but it disappeared six years ago when, Hulstrunk said, air pollution from the California coast reached the northern Arizona city.

"We can put on a semi-space suit and roam around a deserted and dead country. The people will be inside and all living things outside will be dead. Technology will have taken over completely."

"Hulstrunk believes the solution will be found; that somehow, some day man will prevail. But for the near future "we can see no improvement."

LETTERS TO THE EDITOR

Editor
The Western Review
Drayton Valley, Alberta

Dear Sir:

Once again the citizens of Drayton Valley have given overwhelming support to the Canadian National Institute for the Blind through the annual canvass recently concluded by the Drayton Valley Lions Club. On behalf of the Northern Alberta District Board of the CNIB and the Field Secretary for your area, Mr. W. J. Owen, I wish to express sincere appreciation for the excellent response.

The total proceeds of \$833.00 exceed those of any previous year and are due to the generosity of the citizens and business people of the area as well as the excellent organization of the drive by the Lions Club Campaign Chairman, Lion Fred Kaarsemaker.

Such excellent support will enable the CNIB to further expand its prevention of blindness program and its services to the blind and I would very much appreciate it if you would extend our thanks through the medium of your paper.

Yours very truly,
W.A. Tymchuk

Warriors Defeat Warburg 82-55

The Warriors travelled six strong to Warburg this past Saturday to play the Warburg Trotters and came home 82-55 winners.

This game gave those two fine Warrior rookies Barry Swap and Tom McGee a chance to see plenty of action and they came up real strong with 14 and 12 point efforts respectively. Also scoring for the Warriors were Keith Sodergren shooting deadly from the left side for 27 and Terry Jevne playing centre hitting for 15 points and Ron Cameron with some picture shooting from the deep guard position for 12 points.

The Warburg five were moving the ball well and also displayed some fine shooting form but without a doubt the outstanding

performance was given by Ed Cunningham whose drives down the middle and high percentage shooting were a fine tribute to his excellent ability as he hit for about half of the Warburg total.

The Warriors will now swing back into league action this week as they travel to St. Albert for their fourth league game and they will be trying to protect their undefeated season record of 9 and 0.

The Warrior individual scoring to date is as follows: Keith Sodergren 148, Doug Ibbotson 115, Larry Mattoon 100, Ken Dusterhoft 74, Ron Cameron 61, Terry Jevne 56, Don Bouschard 49, Barry Swap 31, Stan Oulton 25, Earl Nixon 16, Tom McGee 14, and Doug Steeves 10.

The 4-H held a skating party at the Keepphills School rink on December 27th. The weather was nice and everyone had a good time.

Two more propane tanks were set up at the Keepphills School last week. This should eliminate any more chances of running the tank empty.

Nora Dombrosky spent the Christmas holidays in the Duffield area with some of her children and on Sunday, they came to see her for the evening.

Bill Sharun and a friend from Edmonton and Mrs. Dombrosky's sister-in-law, Margaret MacDonald, visited at the Dombrosky home on Sunday.

Fair enough. Because the crows could have sworn they saw two dogs. And if you look closer, you'll probably think you see four Indians. Or is it six?

No two people in our brewery agree on just how many there are of what on the Lethbridge Pilsner label. But we're all together on one thing. How to brew the great beer behind it - Alberta's original Pil. That's done the slow, natural, old-time way. For a flavour you can always count on.

AFTER THE FAMOUS FORMULA OF THE HOUSE OF LETHBRIDGE

Trend Indicates Cattle Increase

An end to the downward trend in beef cow numbers is forecast for Alberta in 1970.

According to information received from officials of the provincial Animal Industry Division, nearly 80,000 fewer beef cows were marketed in western Canada during the first 11 months of 1969. Alberta marketed 40,000 fewer cows and at the same time kept back 10,000 more beef heifers than in 1968.

At June 1, 1969, beef cow and yearling heifer numbers in Alberta totalled 1,435,000 compared with 1,437,000 in 1968. In other words, 1969 was the first year since 1966 that potential female beef numbers did not decline appreciably. However, dairy calves declined by nearly 20,000 head from 1968 to 1969. This decrease will probably result in 10,000 fewer dairy animals entering Alberta feedlots during 1970.

A 20% drop in cattle exports to the U.S.A. and a 50% reduction in cattle exports to other provinces were also recorded in 1969.

The surplus of feed grain will

ensure a continuous movement of cattle to feedlots in this province. These animals may be fed to heavier weights and a larger proportion of them will likely appear in the top choice and good grades.

The quality of cattle sold in 1969 continued to improve. Choice cattle slaughtering were up 9%, Good cattle were down 7%, Standards were down 18% and Commercial grades were down 17%. This pattern indicates a small decrease in total cattle marketings, but a notable increase in animals qualifying for the choice of grades.

A reduction in the number of cattle moving out of the province, coupled with an increase in the number of feeder animals coming in from B.C. will maintain or slightly increase feedlot numbers in Alberta. If these cattle are finished to heavier weights, the total pounds of beef produced here this year will be up from the 1969 level.

NEW DATSUN 1600 at D. V. DATSUN LTD.

is probably the safest economy car you can buy

three for the road

The Datsun 1600 changed a lot of people's ideas about economy cars. It proved that a compact-sized, low-cost car can look good, give five hefty Canadians a quiet and comfortable ride, handle and perform like high-priced imports—yet still be economical to run and low on maintenance. Now you have a choice of three Datsun 1600s: the sporty new 2-door, a deluxe 4-door and deluxe family wagon.

engineered for safety

Datsun 1600 is probably the safest economy car you can own. To start with, Datsun has

a specially designed impact-absorbing body to protect passengers inside the car. And the Datsun 1600 sedans have a remarkable all-independent suspension system that makes the car amazingly nimble, easy to handle and gives a smooth, level ride over the roughest Canadian roads. Disc brakes up front, now with the double protection of twin master cylinders, stop you sure and straight. Other standard safety equipment: a life saving collapsible steering column, headrests, belt/shoulder harnesses, 4 headlights, heavily padded dash and interior fittings.

96 hp, 100 mph, 30 - 35 mpg

Datsun's got safety and performance. In its price class, only Datsun 1600 gives you a high-performance 1600 cc overhead cam engine that's good for 96 HP and 100 MPH. It means great pick up and all-day cruising at 70 MPH. And all the time you'll get 30-35 miles per gallon. Go for the butter-smooth 4-on-the-floor with stick or the 3-speed Borg-Warner automatic—either way you've got a lot of fun-driving ahead of you! **quiet and comfortable** The Datsun 1600 has "windows up"

ventilation. Fresh air streams in through adjustable ventilators on the dash, circulates, and stale air is automatically extracted through rear vents. The instant-acting heater/defroster keeps you warm and your windows clear through the coldest Canadian winters. There are more than 150 Datsun dealers coast-to-coast in Canada and \$1,000,000 in parts to back you.

Warriors Defeat St. Francis Xavier

The local high school Warrior basketball club travelled to Edmonton during the Christmas holidays to do battle with the fine St. Francis Xavier senior team of the Edmonton High School League and came home with a satisfactory 57-56 victory. This was an excellent game that saw the lead change hands on numerous occasions and the Warriors holding on desperately during the last few seconds to retain their one point margin.

There were numerous outstanding individual performances in this contest. For the local Drayton team Doug Ibbotson was tops with a 17 point effort, Keith Sodergren playing exceedingly well for 14 points and Ron Cameron added 11 from his guard position. Of note in the Warrior effort was their improvement in backboard control as they snagged 31 off the defensive board and 24 from the offensive board. Rebounding well were Stan Oulton, Ron Cameron, Doug Ibbotson and Larry Mattoon. The Warriors shot 31% in the first half and 22% in the second as they dropped a total of 20 field shots of 75.

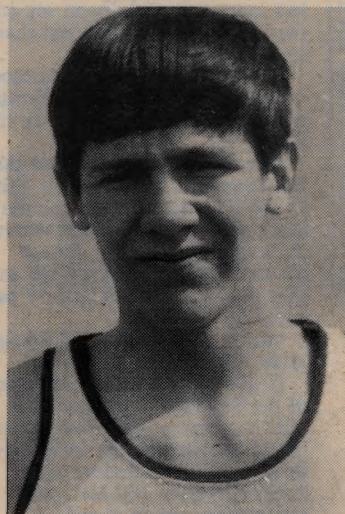

Outstanding for St. Francis was one of Edmonton's finest Raz Le Cavalier with 16 points, also playing well were Ernie Tremblay with 14, Bernie Semak with 10 and Rich Owen with 10.

There is a possibility that these two ball teams may do battle again shortly in the local high schools 6th annual boys and girls basketball tournament January 16th and 17th.

SCHOOL BUS COMMITTEE REPORT

The School Bus Committee submitted the following report on a meeting held in the Keepphills School on Monday, December 8th: -

"A report on a meeting held in the Keepphills School, which I attended along with Mr. Vowk and Mr. Lent upon the request of the Keepphills School Parents Association - December 8, 1969 - 8:00 p.m.

My impression why this meeting was called was to bring to the School Committee's attention the fact that students are being picked up at 7:00 a.m. which they feel is too early, and are on the bus too long.

Diagnosis and treatment entails a bus run that is 38 miles from his first pick up to Stony Plain High School, which would put these first pick ups on the bus for about 1 3/4 hours. The first change the School Committee should make would be to keep this bus (Mr. E. Williams) on a direct route to Stony Plain via Duffield and east to Stony Plain via Highway 16, and no pickups after Duffield. Pickups that have been made shall be picked up by buses travelling Highway 16 to Stony Plain; in this area.

The second change the School Committee could entertain would be to determine the high school attendance from this area south of Keepphills to Duffield; this then would be all the pupils this bus would handle. Pupils from this area attending Duffield would go on another bus. I informed the meeting the bus committee would attend another meeting to advise them of

a ruling by the School Committee.

P.S. To give this problem the royal treatment would be a High School in this area.

My own opinion, a bus route should be about 25 to 30 miles, and the first pickup around 8:00 a.m."

Ivan Vowk

It was moved and carried that the matter of E. Williams' school bus route be referred to the School Bus Committee for study and a recommendation.

REPORT ON SCHOOL BUSING

However, Mr. Propp's bus is loaded to capacity. I recommend that Mr. Propp be asked to purchase a new 54 passenger bus."

It was moved and carried that the matter of the overload on Troy Propp's school bus be prepared to Mr. Peter Bakker and the School Bus Committee for attention.

tee is aware of this problem and that every effort will be made to eliminate it as soon as possible.

It was moved and carried that the Building Committee be authorized to purchase one portable school building complete with facilities upon receipt of notification from the School Buildings Board.

REQUEST FOR SCHOOL BUS RATE INCREASE

ALDER FLATS NEWS

There were 14 present at the last Community Association meeting held January 17th. The Directors of each committee gave their reports with discussions following each report.

Mr. Danyluk informed us that the uniforms for the Pee Wee Hockey team have arrived so both the Pee Wee's and Bantams will be in uniform this year. Ages of boys for these two groups are: Pee Wees 7-12; Bantams 13-16. The coaches for the two teams are Mr. Danyluk for the Pee Wees and Mr. Pearson for the Bantams. Your efforts to get your boys out for the practice sessions will be appreciated by the coaches.

Recreation Director Norm Moore gave a run down on the curling for the coming season, this year if there are enough teams they plan on grouping in two sections, with the top two teams of each section to play off for the trophy. This play off will take place before the end of the season while we still have ice, as each year we never get through the round robin before the ice melts so consequently no play-offs. If enough women sign up on the sheets of paper provided at the stores and post office, there will be ladies curling on Friday evenings this year. So lets fill those sheets ladies. The curling fees are the same again this year with the exception for the ladies, if you are a member of the round robin you can curl on the ladies team without an additional cost to you. Curling fees for the season are: men \$10, ladies \$5, students \$3, and ladies curling only \$3. The Indians have predicted a mild winter so this should be the year to start up ladies curling again.

Bonspiels scheduled for January are: Legion 4th, High School 9th & 10th, Open 15th - 18th, Ladies 24th & 25th, Teachers 31st, Buck Lake Open 5th, 6th & 7th of February.

The financial report was read and a letter from the County of Wetaskiwin concerning the 13.12 acres of land purchased by the County and the Community Association, specifically the joint use of the said land. Mrs. Tugwell will continue as janitor for another year.

USE THE CLASSIFIEDS

Little Evidence of Shift to Livestock

Even though cattle and sheep are bringing good prices, and in spite of burdensome cereal grain surpluses, there is little evidence that Alberta farmers are making any major shift from grain to livestock production.

In fact, the head of the Alberta Department of Agriculture's Marketing Branch, Tom Rackham, points out that the amount of land being brought under cultivation each year more than offsets the acreage that is being retired annually from cereal grain production. The net result is that farmers in this province are still adding to present grain surpluses despite the fact that there appears to be room for a moderate, but steady, increase in cattle and sheep production.

Back in 1961, claims Mr. Rackham, nearly 52% of the 25,289,000 acres of improved land in Alberta was seeded to wheat, barley, oats, rye, oil seeds, mixed grains and other crops. In 1969 farmers were still seeding over 51% (14,693,000) of the 28,663,000 acres of improved land to these crops. Also, in 1961 and 1969 farmers had virtually the same acreage in summer fallow - 7,450,000 and 7,400,000 acres respectively.

While it is true that there has been a marked increase in the number of cattle being fed and finished in Alberta, efforts by federal and provincial departments of agriculture to build up the province's beef breeding herds have not been too effective. The farmers reluctance to change is evident in the fact

that there has been little increase in the number of acres seeded to hay and pasture crops, says Mr. Rackham.

For example, in 1966 farmers had 5,595,000 acres in green feed, hay and pasture. Four years later, there were 5,970,000 acres being used for these purposes. In other words, the acreage seeded to tame hay, green feed and pasture has been increasing by only about 100,000 acres a year.

According to Mr. Rackham, it has been estimated that if Western Canada is to retain its share of the Canadian livestock output, there will be a need for an additional 3.5 million head of cattle by 1980. To feed these additional animals, would require diverting 4.5 million acres from cereal to forage crops. At the present time Alberta produces approximately 82% of the cattle in Western Canada. However, if the province is to maintain its present share of this total output, Alberta farmers will have to increase their beef herds at the rate of 287,000 head annually during the next ten years. To do this would mean converting 369,000 acres annually from grain to forage crops, which is considerably higher than our present rate of conversion, says Mr. Rackham.

Tomahawk Club Meets

LINDA PISKUNOWICZ
Club Reporter

The regular meeting of the Tomahawk 4-H Beef Club was held on December 9th at the home of Mr. Jouan. Mr. and Mrs. Goertz were co-hosts.

The pledge was lead by Linda Brydges and roll call was "Name of My Calf".

The club decided to pay the Secretary-Treasurer and reporter for mailing expenses, etc.

Problems with the animals were discussed and the major points of discussion brought up at the 4-H council meeting held at Duffield.

Reports were given by Brenda Zander on "Rate of increase and mixture of feed", Rodney Jouan on "How to feed club calf", and Harold Wickware on "Management of your calf".

The meeting was adjourned and a delicious lunch was served.

PLASTIC BAGS

The Federal Health Department cautions you to be sure to keep plastic bags, such as those used on dry cleaning, away from babies and children. The best plan is to throw them away immediately. It is NOT SAFE to use thin plastic to cover a mattress. It clings to the baby's nose and mouth and can cause smothering.

The Christmas concert was held on December 19th with a good crowd in attendance. At midnight when the balloons were released Mr. Henry La-Prett won the box of chocolates. After the crowd sang Auld Lang Syne and welcomed in the New Year, a lovely buffet lunch was served. Former residents of the district who attended the party were Mr. and Mrs. M. Yandt and Mr. David Harke.
